

The British Virgin Islands Electricity Corporation is requesting proposals for consultancy for the implementation of a SCADA Distribution Control System in the Territory of the British Virgin Islands. The specific location for implementation will be on the islands of Tortola, Virgin Gorda and Jost Van Dyke.

The Request for Proposal Documents are located on the BVI Electricity Corporation's website at <https://bvielectricity.com/SCADA> for review and download.

The deadline date for the submission of a proposal is Thursday, November 9, 2023 at 11:59 PM.

Questions on further details of the project can be submitted to [scadaganda@bvielectricity.com](mailto:scadaganda@bvielectricity.com). Reputable bidders are encouraged to submit a proposal to [procurement@bvielectricity.com](mailto:procurement@bvielectricity.com).
